

InoXoft - was founded by IT and big business industry experts who decided to unite their capabilities and create a team that will change the game in software development. In July 2014 in Lviv, Ukraine and is enjoying rapid growth since then. Our core competence is a software development using Microsoft technologies and mobile development for all major platforms.

We invite to our team next specialists:

- Trainee/Junior .NET Developers;
- Trainee/Junior Android Developers;
- Trainee/Junior IOS Developers;
- Trainee/Junior PHP Developers.

We offer:

- Proactive and intelligent project management;
- No barriers and openness in communication with anybody;
- Various forward-looking projects with foreign clients;
- Reward for fresh look and contribution to the company growth;

And more: Paid vacations, sick leaves and holidays for relaxation;

Flexible working hours for work&life balance.
