**JS**

**APPLY TO: PH.D. ULIANA MARIKUTSA**  
(uliana.b.marikutsa@lpnu.ua)

**DEADLINE: MAY 15, 2019**

## IF YOU WANT TO:

- gain an insight into work in the international company
- create a simple application for business
- find out what SCRUM and Agile are
- meet new people and work in nice atmosphere

## IF YOU ARE FAMILIAR WITH IT BASICS:

- Windows/UNIX servers
- databases
- programming languages (Java, JavaScript)

## VIG POLSKA IS THE BEST PLACE FOR YOU!

### PROGRAM DETAILS

During the Summer Internship in IT your team will be exposed to a variety of roles to help you understand how technology works. Your main task will be to create a small application for real use among business. You will have the opportunity to familiarize yourself with the management and support of IT processes and project management.

The program is dedicated to computer science or related fields students with excellent English skills (Polish will be an asset) and who are available from August to September (local contract).

### DURING PROGRAM WE PROVIDE YOU:

- possibility to gain globally appreciated work experience
- constant support from your assigned buddy
- attractive benefits - we will take care of your stay in Warsaw (accommodation, meals, insurance, pocket money)

### RECRUITMENT PROCESS:

- gather a 4-person team (remember about roles in projects - you will be facing coding and analytical tasks)
- meet us on May 16
- resolve the recruitment task
- recruitment results will be announced till June 15
